FIND YOUR RING SIZE

Step 1. Specify Your Scaling Option Prior to Printing:

On your print dialog box, Page Scaling is set to "None", zoom at 100%. (You can open that box by pressing CTRL+P)

Step 2. Confirm the correct size of the page:

Measure the verification bar by a ruler to confirm accuracy. It must be 10 cm, 100 mm long.

Step 3. Measure Your Finger:

1. Cut the strip out along the lines indicated.
2. Wrap the sizer around the widest part of your finger to be sized.
3. Hold the flat end of the strip on the finger and wrap the arrow end around until it is snug enough.
Read the number closest to the arrow point for the ring size.
4. Keep in mind to move up to the largest size, if you are in doubt.

Step 4. Measure Your Existing Ring:

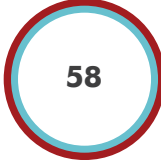

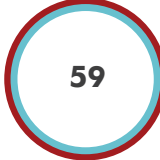

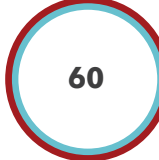

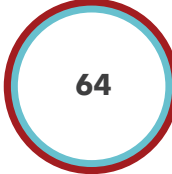

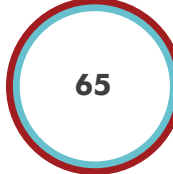

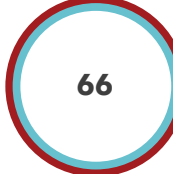

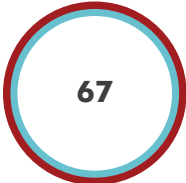

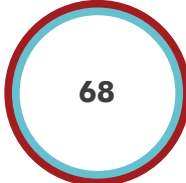

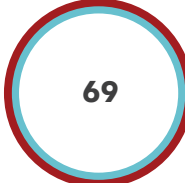

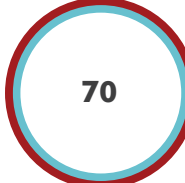

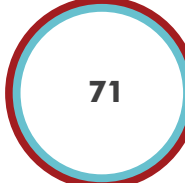

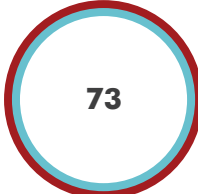

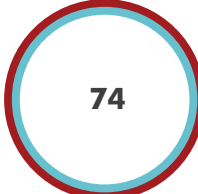

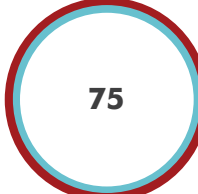

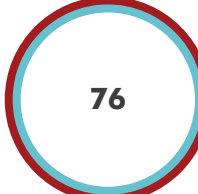

If you have already a ring that fits the finger to be sized properly, you can find your ring size by using the "Circle Chart" on page 2.

Step 5. Order Your Ring:

Now you know your size! You can look for your favourite ring in our online store and order it.

CIRCLE CHART

Place the ring over the circles below. When you look from the above with a vertical angle, you should see the blue circle inside without any space. Be sure that you shouldn't see the red circle! If the ring falls between two sizes, please order the larger size.
